

Accu-SHERQ
Risk Consultants

Accu-SHERQ based in South Africa, provides a quality service to increase fire safety, risk awareness and risk management in all industries across Africa.

With over 80 years combined experience in fire consulting, fire safety and fire response, our team is conversant with changes in the municipal fire brigade, construction, industrial, and insurance environments. We acquaint ourselves with our client's dynamics for our services to be most beneficial. We keep abreast of the latest developments in building and health legislation, national standards, codes of best practice, development and testing of building materials, risk management and training to enhance the quality of its services.

Accu-SHERQ is founded on principles of honesty and integrity. The company aims to provide clients with the best advice and service. We recognize the need to respect clients' individuality, build relationships and provide solutions that best meet their requirements. All clients are assured of a professional service that is timeously rendered, relevant and of a standard that meets or exceeds their expectations.

Accu-SHERQ help manage and mitigate risk and improve workplace safety, from a fire and water-quality perspective.

We assist clients in developing fire safety plans to enhance business continuity and we consult on fire-related and water-quality technical solutions, helping to reduce business interruptions when an emergency incident occurs.

We conduct water quality assessments in the form of Legionella risk assessments, audits, and training for the Hospitality and Health sectors.

Accu-SHERQ offer a range of industry related and compliance training programmes, including our Surveyor Development Programme. This programme is aimed at increasing knowledge and competency of insurance surveyors for the betterment of risk identification and underwriting management.

Accu-SHERQ's clients include Overstrand Municipality Fire and Rescue Services, Mopani District Municipality, Rand Refinery Limited, Protea Hotels, Veolia Water Solutions and Technologies, Tshipi Borwa Mine, Hollard Insurance Company, Massmart, VKB, Assmang (Pty) Ltd and Afrisam (Pty) Ltd.

Our team has experience in local authority fire service operations and fire safety; underwriting risk surveying and management, risk and safety for underground, open-cast and surface mining operations; warehousing and storage; offices; agricultural product storage and processing; and various other industries including food production and mineral beneficiation.
